labor leaders to protect their clients from answering questions in connection with the Federal injunctions granted during the strike by Judge Kohlsaat proved unavailing. Judge Kohlsaat decided that although a person can avail himself of the privilege of not answering incriminating questions, the defendants must appear before Master in Chancery Sherman tomorrow morning and be sworn as witnesses.

May Avoid Incrimination.

May Avoid Incrimination.

If the occasion arose where they did not desire to answer questions for fear of incrimination they could take advantage of their rights and refuse. The privilege of refusing to answer questions was all that any one could ask. There could be no possible objection to having the witnesses sworn. At 10 o'clock tomorrow morning the labor leaders against whom the injunctions were issued will, appear before Master in Chancery Sherman and the examination in support of the restraining orders, which are returnable on Wednesday, will be commenced.

Say They Will Go to Jail

Say They Will Go to Jail. This arrangement of Judge Kohlsaat was not satisfactory to the labor leaders, however, and President Dold of the Chlcago Federation of Labor declared to night that none of the men would appear to give testimony even if their refusal resulted in them being compelled to go to iail.

Patrolmen Now Ride.

With the general movement of delivery wagons in all parts of the city, increasing the labor protection for the police. Chief of Police O'Neill today issued instructions that in the future it will not be necessary for policemen to follow the wagons on foot, but that they will be permitted to ride beside the drivers.

This order was found necessary by Chief O'Neill on the ground of the extension of territory where deliveries are being made

Serious Charge Against Shea.

The Employers association tonight issued a statement addressed to the public, declaring the charges against President Shea, of the teamsters made by them last Friday are true in every respect. In these charges it was declared that President Shea had offered to settle the strike on the following basis. That the strike on the following basis. That the strike he declared off, the teamsters to return to work for twenty-four hours during which time Shea would leave town. The employers would then have the right to discharge all their men.

President Shea had denied the assertions ever since they were made and still asserts that there is no truth in them

Brothers Fatally Injured

Two brothers. John and Richard Fruen, were fatally injured today in a street fight with a colored man. Both of the men were stabled in the abdomen. Their assailant, whose identity is not known, escaped. The polics believe he is a stranger in Chicago, and are working on the theory that he may be a "strike-breaker."

STOWAWAYS ESCAPE.

Give Ship's Officers a Surprise by Swimming Ashore.

NEW YORK, May 8 -As the Italian liner Citta di Napoli, from the Medi-terranean, was about to be docked at the Italian piers at the foot of Thirtyfourth street, in the North river, two young men leaped to the port railing of the liner and jumped into the water. Both were expert swimmers, and in less than ten minutes they had reached the shore. Scrambling to the street, they quickly disappeared. Both were stow-aways and unless they are captured, the Government will impose a fine of \$1000 on the line for permitting their

TO KEEP MILK PURE.

Dealers of New York and Brooklyn Form an Association.

NEW YORK, May 8.—Milk dealers in New York and Brooklyn to the num-ber of forty have formed an organization called the Association for Improve-ment of the Milk Supply, which will co-operate with the Department of Health in keeping pure the lacteal fluid reach-

Periodical examination will be made of milk that comes from the various stations and creamerles, and of milk from the farms supplying each station.

When these examinations disclose opportunity for improvement in the milk further inspections are to be made at the creamery, especially to determine whether the sanitary conditions are as they should be. Any farmer who supplies milk below the creamery standard will be notified of the fact and will be told how to improve the product of his farm with regard both to the richness and the cleanliness of the milk.

Work Is Begun on Boston's Plans

Under Rush Orders the Company's Metallurgist and Engineer Begin Their Labors.

The active compilation of plans along the lines of which the equipment of the Boston Con. of Bingham are to follow, was yesterday morning inaugurated by J. B. Moser, the company's mechanical J. B. Moser, the company's mechanical engineer, and under the supervision of A. F. Bettles, metallurgist on the company's staff. To expedite construction, said Mr. Moser, he has been directed to divide the stupendous undertaking into units of 890 tons each, the first section of the plant to have a battery of four of these with an aggregate daily capacity of 3200 tons, this section to be divorced from the second of corresponding capacity by a wall that shall protect it in the event of fire within the confines of any other unit Mr. Moser, whose latest plans were for the plant at which the ores of the Newhouse mines in Benver county are now being reduced, has begun, with Mr. Bettles, the plans for Boston Con under "rush orders," and promises to have them in such condition that construction shall be permitted to begin along those lines. While those now engaged upon the elementary details of the vast undertaking by which 10,000 tons of copper, gold and silver-bearing Bingham porphyries shall be reduced daily, would not undertake to say when ground would be broken on the site at Utah Lake, there will be no delay, and within the next sixty days construction should be well in hand. engineer, and under the supervision of A.

The former, said he, should, on camp assays, show as much as 30 percent lead, with 10 ounces silver, 15 percent copper and \$3.50 gold per ton. From this time Manager Orem expects to be able to maintain a steady output, while the new air compressor will go into commission the last of next week. The machine drills will then get busy with the long tunnel to advance once more.

. Up at the Park.

Conditions at the Wabash are improving daily and though nothing has been given out by the management it is generally known that an ore body is very likely to be opened up at any time, says the Record of Park City.

D. D. Moffatt, formerly master mechanic at the Ontario, is now in charge of a 500-ton mill at Grand Encampment, Wyo, and writes that he likes the place and people and is doing well.

Manager John J. Daly of the Daly-Judge was in camp vesterday and upon his return to the city stated that there was nothing at all new to report. The work of prospecting goes steadily on and the territory is opening up splendidly.

The extra shift which has been working on the tailings at the Silver King mill for some time past was laid off the first of the week, the work having been finished up.

JEFFERSON CITY, Mo. May 8.—Gov. Folk today honored the requisition of Gov. Fardee of California for the return to San Francisco of E. J. Smith, the defaulting Tax Collector of that city, who is under arrest in St. Louis.

COLD NIGHTS CAUSE CATARRH

Every One Should Use Hyomei and Kill the Germs.

No other season of the year is responsible for as many cases of catarrh as the spring. The warm days and cold nights, with their frequent and sudden changes in temperature, bring the catarrhal "snuffles" to nearly everyone.

The germ-killing and health-giving Hyomel, when breathed through the pocket inhaler that comes with every outfit, penetrates to the most remote cells of the air passages and respiratory organs. It searches out and kills catarrhal germs in the head, throat and lungs, soothes and heals the irritated membrane, and absolutely mucous drives catarrh from the system.

The complete Hyomei outfit costs but one dollar, and includes an inhaler and sufficient Hyomei for several weeks' treatment. You take no risk in buying Hyomel. F. C. Schramm absolutely agrees to refund the money if it does not give satisfaction
